

MarineServicePro

Government & Public Sector Capability Statement

Offered by Beka's Supply Company, LLC | SBA-certified WOSB and SDVOSB small business

Marine service management software for fleets, harbors, and waterfront operations.

MarineServicePro helps marine service teams manage customers, vessels, onboard systems, service locations, dispatch, technician field work, maintenance, quotes, invoices, and follow-up in one operating system.

CORE CAPABILITIES

- CRM, vessel, and onboard-system records tied to service history and scheduled maintenance.
- Dispatch, appointments, technician job flow, photos, notes, and signatures.
- Installable technician web app for phone, tablet, and desktop use.
- Offline queueing for field updates when technicians work in poor coverage.
- Quotes, invoices, customer payment links when enabled, and manual/export workflows.
- Inventory usage, reorder visibility, reports, audit trail, and admin controls.

BUSINESS DESIGNATIONS

- SBA-certified Woman-Owned Small Business (WOSB).
- SBA-certified Service-Disabled Veteran-Owned Small Business (SDVOSB).
- Small business supplier suitable for direct agency evaluation and prime-contractor subcontracting conversations.
- Certification details and procurement documentation available during buyer review.

PUBLIC-SECTOR FIT

- Municipal marinas, harbor authorities, and waterfront public works teams.
- Marine service contractors supporting government and institutional fleets.
- Patrol, rescue, research, training, and workboat maintenance operations.
- Organizations that need auditable vessel and onboard-system service history.

Procurement Path

MarineServicePro is positioned first as a commercial SaaS product for agency evaluation, small-business set-aside opportunities where eligible, and subcontracting with marine maintenance and service-delivery prime contractors. We do not claim GSA Schedule listing, FedRAMP authorization, or government endorsement unless separately documented.
